Catch the Sperm II is a tiny but successful game, that lets you teach your game character (who, by the way, is a sperm) a very useful life lesson – if you wish. The game is ideal for people who want to achieve orgasm quickly, and who are afraid of getting STDs. Therefore, the goal of the game is very simple – use condoms and avoid sperms all the time, so as to avoid the dreaded sperm fever (that is, the most painful and potentially dangerous disease). The game, as mentioned before, teaches the user about the dangers of not using protection. Therefore, if you play it for a while, you are likely to see yourself making smarter decisions in regard to your sexual habits. It's interesting to note that, although the education system is at its core, the game looks and feels a lot like one of the usual "racing" games, so even some skill-less users may be able to enjoy the game. Some tips: — Be careful to always use protection: the only way to prevent the negative effects of unprotected sex is to use condoms. — Reducing the level of graphic details will enhance the game and its educational value, but at the same time, it will require much less of your computer's resources. — Always use the highest settings possible. — You can choose not to spend much or all of your virtual money. — You can also start the game by single clicking.
