About This Game

In Mars Colony: Frontier you can learn the hard way what life would be like if you were stranded on the red planet. In this open-world simulator, you assume the role of an astronaut who has been sent on a mission to Mars only to have turmoil on Earth extend your stay indefinitely. Cut off from supplies from home, the colony must fend for itself against starvation, illness, radiation storms, and the inevitable death of irreplaceable machinery.

Players can either play alone, on a dedicated server, or run their own for others to join both online and LAN. Multiplayer mode can handle up to eight players on four teams to compete for control over all of the resources Mars has to offer. The dynamic economy reacts to current supply and demand, paving the way for one player or team to come out on top. Four career paths allow for players to either specialize in one aspect of survival or become a jack of all trades.

Low FPS for absolutely no reason.. the worst game ever. Create a colorful world and burn it to the ground.. PAID FOR TUNDRA DLC HAVENT SEEN IT YET

. Actually a super fun game, I rate it a solid 10/10. I hope that more people would come play this game. Very Smash like as well.. Simple and fun. pace could be faster tho. Worthy addition to The Talos Principle... Highly recommended!!!

Picked up a turtle and returned it safely to water
8/10 would rescue animals again. Silencer on an RPG...
Just..just ...yes. Thank you.

Servers are full of people right now so its hard to get into a server but the shooting range alone is freaking beautiful!. Good game, Fun to play with games for arround 1hour
Control is fine, people who complains are probably noob to the core.
The music is annoying after a while lol

One thing tho, The team match should have the option to turn off the friendly fire and dedicated spawn point maybe. Otherwise it feels the same.

All in all it Feels good to play Bomberman like games with your friends again.. Smart mix of Hotline Miami and Devil Daggers, covered with weird west aesthetics. Good level design allows you to take advantage of a wide range of skills and weapons.13\$ for the 18 levels included in early access (plus 3 additional challenges for each map) is fair price.. Reminds me of a more colourful and humourous Battle Garegga (if they bring that to steam I'll sh\u00edt myself). Definitely one to try out if you have fond memories of Mame emulated shmups of yore, especially with the worldwide leaderboard to show you how much you suck\rule compared to everyone else.. Pretty bad hidden puzzle game. I like this kind of game, but this one is too awkward. Silly combos for just about every object, ambiguous graphics on even the first couple levels.. Fun game. Took me about half an hour to go through all three levels. Very easy, and the story is basically non-existent, but the game has a good atmosphere. I thought it was worth the price I paid for it, at least.. Great start so far! I've played a lot of VR games and the mechanics these guys have dreamt up is new, fun, and really innovative. You can hand parkour around, jet around like Ironman, and even fly around like a flappy bird, amongst others. I can tell the movement system will have some depth to mastering and probably boil down to personal style\preference. I didn't get to test out a lot of the weapons on live targets but I look forward to seeing how movement, spells, and weapons will balance out. I enjoy games like Quake and UnrealTournament where movement is equally important as shooting and Sweaty Palms seems similar but in VR.
